

# THE POOPER HEROES

**Print and Play**  
simplified version  
**Players:** 3-7  
**Age:** 7+  
**Time:** 15 mins.

In this game every card can turn into poop, and if that happens, you won't want to keep them in your hand, so you'll put them on the table in front of you. That will be your poop pile and your goal is to have the smallest pile by the end of the game.

## SET UP

Print and cut the 75 playing cards. Shuffle this deck and deal 3 cards to each player. Leave one food card face up on the table. This will be the discard pile. The rest of the cards stay face down next to it forming the draw pile.

Now pick a player to go first. Afterwards, players then take turns in clockwise order.

## TAKING TURNS

### 1. Play cards

On each turn you have to play at least one card by placing it face up on the top of the discard pile, except for the Poop card which you place on top of another player's poop pile. (see section 'Action Cards')

You can play a food card if its colour or its picture matches with the colour or picture of the card on the top of the discard pile.

Other Player's poop pile

You can play an action card on any other card. If you play an action card, place it first, then do the action it says. The Poop action card is played on another player's poop pile.

You can play any matching card from your hand or you can try to play the top card from your poop pile. This is one way to reduce the number of your smelly cards.

1. Your poop pile

3. Your poop pile

You can play as many cards as possible in one turn by combining the top card of your poop pile with the cards in your hand.

4. Your poop pile

### 2. If you have no cards to play, take from the draw pile

If you can't play the top card from your poop pile or any other cards from your hand, take cards from the top of the draw pile. You can choose to draw cards even if you have cards to play in your hand, but you want to keep them for later.

- If you draw a card, play it immediately if possible, and then your turn is over.

- If you can't play the card you've drawn, then it turns into poop. Place the card face up on the table in front of you. This will be your poop pile. Draw another card. If that one also turns into poop, place it face up on top of your poop pile; keep drawing until you find the right card to play and you can finish your turn.

**Important!** Once you draw a card from the draw pile you are no longer allowed to loop your cards: you can only play the one card you have just drawn.

**3. Don't remain empty-handed**  
If, by the end of your turn, you have run out of all 3 cards in your hand, draw 3 new ones from the top of the draw pile. (If you still have at least one card in your hand, you should not draw.)

## THE END OF THE GAME

The game ends when there are no more cards in the draw pile. Then all players discard the cards from their hands and count the cards in their poop piles. The player with the fewest cards wins the game. If there are multiple winners, you can celebrate together.

## ACTION CARDS

### LOLLIPOP

**Action:** change colour  
**To play:** place it on the discard pile and choose a colour from orange, red, blue, yellow or green
